Tickets are out now for the complimentary dinner to be given to Lieut. Col. Irvine at the Queen's Hotel on Tuesday evening next. There are only a limited number of tickets issued, and all those who wish to do honor to the gallant colonel had better secure them at once from T. N. Campbell's store.

Thermometer indicated colder weather last night than any before this winter; still it was not cold, only 22 degrees below zero. For the last month or so we have had beautiful weather, the thermometer did not indicate lower than 10 below zero during that time, and during the days there would only be a few degrees of frost.

"Fever is on the increase and is now in half-a-dozen houses. A meeting of the council has been called to consider the advisability of putting the infected houses under quarantine." The foregoing paragraph appeared in the telegraphic news of the Battleford Herald, and a more malicious falsehood was never sent along the wires. Fever was certainly in town but only three families had it, and no two at the same time, and at present the invalids are about able to be around.

A Baggage-master's Tribulations.

Wm. Clark, baggage-master, W. & A. railway, Annapolis, N. S., writes:—Please send me another bottle of Nal Balm as my first bottle is gone and I believe had I used it according to instructions it would have cured me; as it is I am very much better, in fact feel like another person.

THIS PAPER may be found on Friday, Jan. 11, 1889.

We hope that our citizens will take advantage of Tuesday night's banquet to express the esteem in which we feel sure Col. Irvine is held by them.

The list of buildings published in another column erected in this town in the year just closed is a most creditable one; besides forty-one buildings of various kinds accounted for at a total cost of nearly \$50,000, there has been a considerable amount of money spent in finishing buildings put up in former years and we have doubtless omitted one or two of last years erection. When we consider that there is no immigration to the place the increase in building is something remarkable, and the substantial and costly nature of most of the buildings erected speaks well for the future of the town and the increasing confidence of our citizens in that future. "Floreat"

Now that the municipal elections are over and the excitement occasioned thereby has subsided, we extend our congratulations to the successful candidates, and express the hope that they will drop all private and petty jealousies and direct their energies to the furtherance of the best interests of the town. We do not agree with those who say that we have the poorest council that it was possible to get; on the other hand we believe that it would be difficult to select one which will be more practical or watch closer our interests. In Mr. Knowles we have a mayor who is in every way fitted for that position; we feel confident that our interests are safe in his keeping and that he will see that the public monies will be more equitably expended in the different wards of the town than they have hitherto been. We have full confidence that the policy of the new council will be one of economy and that at the end of the year they will go out of office with a clean record.

Some time ago we took the liberty of bringing to the notice of the Dominion Government the fact that the expenses of the late Assembly elections in the districts of Prince Albert and Kinistino had not been paid. We regret that, so far as known by the returning officers for

those districts, they have not yet been paid, and those who acted as deputy returning officers and in other capacities are still anxiously waiting for their money. In some cases those officers had to travel over 600 miles at a very large personal outlay and it is a gross injustice to keep them waiting as long as they have. They have now waited and suffered over six months and it should now be in order for the Government to send up some idle clerk from Ottawa to investigate the accounts. If there was anything wrong in the matter it should have been enquired into forthwith and settled one way or another; anything would have been more satisfactory than the treatment that has been meted out to the returning officers and their deputies in the districts mentioned.

We have for some time felt that steps should be taken towards the formation of a society here having for its object the acquirement and preservation of information relating to the past and present history of the country; in other words a Scientific and Historical Society, and it might be made a literary institution as well. We have consulted several of those who would be most likely to take an interest in such a society and all whom we have seen favor the project. We do not anticipate that the expense would be very great, while the benefits to be derived therefrom would be incalculable. Our country has a past history that should be preserved, and now is the time that it should be done. Many interesting facts, which at present are unknown, except to themselves, could be gleaned about the Indian tribes. Such a society would have as one of its objects the collection of natural history specimens and other scientific work. The formation of a good library would be of necessity an other object and there is nothing we stand more in need of to day. We see no reason why the scheme could not be successfully carried out, and trust that some one will take the initiative and invite a meeting of all interested. No harm will be done by discussing the matter and much good may result.

THE ELECTIONS.

Monday last being the first of the new year it was the day laid down in the municipal ordinance for holding the civic elections. Only two—Knowles and Agnew—of the five candidates nominated for mayor went to the poll; at 5 o'clock when the poll was closed Knowles had a majority of twenty two, eighteen of which he got in the East End. Of the 133 electors who voted only 120 cast their ballot for mayor, which shows that nearly one fourth of the electors took no part in the mayoralty contest. For councillor in Ward No. 1 the electors were equally divided in their choice, and the casting vote falling to the town clerk he declared Woodman elected. In Ward No. 2, quite a bit of excitement was kept up all day, only one of the six candidates nominated, retired; the vote was very close, but Donaldson and Goodfellow had the majority. Ward No. 3 was very quiet and had it not been for the few extra light rigs on the roads, a stranger would not know that anything unusual was going on. Sanderson was the favorite, with Davis, the only councillor of 1888 elected, second. The following is a statement of the number of votes polled for the various candidates:

WARD NO. 1.	
McPhail	12
Woodman	12
Total number of votes cast ..	24
WARD NO. 2.	
Donaldson	27
Goodfellow	26
Hamilton	21
McLeod	16
Olsen	9
Total number of votes cast ..	57
WARD NO. 3.	
Sanderson	38
Davis	30
Mavery	23
Total number of votes cast ..	56
WARD NO. 4.

Agnew, Knowles	
Ward No. 1	2 20
2	15 26
3	24 17
4	8 8
Totals	49 71
Majority for Knowles	22

After the state of the poll had been made known the friends of Knowles in the East End formed themselves into a procession and with brooms soaked in coal oil for torches, marched through the town to the music of canzons, a circular saw and lots of lung power. After the procession had liquored-up at the Queen's Hotel, the party re-formed and proceeded to the residence of Mr. Chas. Mair, where they were well received. Mr. Mair came forward and in a neat and appropriate speech, prophesied a brilliant career for the candidates elected, and also for the future prosperity of the town. The band turned out and serenaded all the councillors elect at their residences where music, speeches and refreshments were indulged in. The excitement was kept up until a late hour.

Building Operations

IN 1888.

The following is, as nearly as we can ascertain, a correct statement of the buildings erected in this town last year. In each case we give the name of the contractor, and the cost of the building. It will be seen that there were forty-one new buildings erected, at an aggregate cost of \$45,910.

The first in importance is the Niabet Academy, built on the hill near the court house. It is a two-story brick building, 37x52 feet, with a bellry on the front of the roof; it presents a fine appearance and is quite an ornament to the town. Through the courtesy of the contractors we had the pleasure of inspecting the inside, and we must say that no better workmanship has ever been displayed in the Northwest. The first floor contains one room 20x35 feet for public entertainments, but also used at present as a music room; hall, 39x10 feet; class room, 20x21 feet; and principal's office, 10x12 feet. On the second floor there are two class rooms 21x25 feet, reception room 12x20, teacher's private room 12x12, and a hall 10x12 feet; the staircase is a fine piece of workmanship. The building is well lighted, and everything about it appears to be perfect. There are three class rooms now furnished with desks, to the number of thirty, the gift of Mr. J. M. Dill, of Brockville. Mr. T. Powers did a first-class piece of work on the brick, stone and plaster work for \$2,500, and A. & W. B. Goodfellow were the contractors for the building and did all the carpenter work, etc. for \$5,000. Total cost, with extras, about \$8,000.

The Goodfellow Bros. also did factory work to the value of \$2,000.

Besides the above, a large amount of money was spent by the Government on the Barracks and Court house, which would bring the total of improvements up to about \$60,000 for the year.

Messrs. Peard & Brown manufactured and disposed of 300,000 brick.

During last year there was over \$1,000 expended by the town on streets and other improvements.
